## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Serial No. 09/545,653

**DETAILED ACTION**

1. Applicant is required to provide serial numbers and update statuses of related applications cited in page 1 of specification.

**Non-Art Rejections:**

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 2-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The following language lacks proper antecedent basis:

In claim 2, line 1, "the interpreting step", it is not clear which interpreting step it refers to in claim 1.

**Art Rejections:**

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. Claims 1-4, 7 and 12-17 are rejected under 35 U.S.C. § 102() as being clearly anticipated by Leighton et al, U.S. pat. No. 6,108,703.

Leighton discloses a system and method for providing multimedia contents to users over the network comprising:

- a) receiving the base information associated with a user request from a content service provider, the information including embedded links/references to contents stored at one or more hosting content servers that are closest to the user (see col 6, lines 21-30),
- b) accessing the referenced contents from the hosting content servers (see col 6, lines 31-34),
- c) displaying the received information and the accessed contents (see col 5, lines 23-41).

It is noted that information associated with the embedded objects can be either retrieved automatically or upon user's

Serial No. 09/545,653

selection. For example, additional information for a referenced ad is usually retrieved in response to user's clicking on the ad (see col 8, lines 17-19).

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

7. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

8. Claims 5-6, 8-11 and 18 are rejected under 35 U.S.C. § 103 as being unpatentable over Leighton and further in view of Raz et al, U.S. pat. No. 6,311,221.

Leighton's teachings are still applied as discussed above. Leighton does not explicitly teach data streaming. The use of data streaming is well known in the art as disclosed in Raz.

Serial No. 09/545,653

It would have been obvious to one of ordinary skill in the art at the time the invention was made to utilize data streaming in Leighton because it would have allowed the user to view the video without having to wait for the entire video file to be downloaded completely (see Raz's col 1, lines 20-32).

**Conclusion:**

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Viet Vu whose telephone number is (703) 305-9597. The examiner can normally be reached on Monday through Thursday from 8:00am to 4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Meng-Ai An, can be reached on (703) 305-9678.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 305-9600.
